

Important Information with Regards to Your Tyco® BlazeMaster® CPVC Fire Sprinkler System

CONGRATULATIONS, your building structure contains a state of the art life safety system. Your CPVC fire sprinkler system will enhance the safety and security of your building when properly cared for. CPVC Fire Sprinkler Products resist attack from a wide range of chemicals that are corrosive to metallic piping. As with any piping material, there are however, certain chemicals that can be detrimental to CPVC. Occasionally some of these chemicals may be found in some construction products, site preparations and building maintenance. There are certain things that you need to be mindful of in caring for or working around your CPVC fire sprinkler system.

Keep your system clear from contact with the following products and chemicals unless product labels state materials are compatible with CPVC:

Ordinary considerations	Property maintenance services
Cleaning Products Detergents Oils/Lubricants/Greases Rubbery Materials	Fungicides Mold Remediation Chemicals Termiticides / Insecticides
For hired contractors & do-it-yourselfers	
Corrosion Inhibitors Glycol-based antifreezes Solder Flux Thread Sealants Flexible Cable / Wiring (especially communications cabling) Caulks/Mastics Adhesive Vinyl / Electrical Tape Non-Water Based Paint Paint Thinners Wood Finishes/Varnishes Consult www.Lubrizol.com before installing spray foam insulation	

You should also avoid the following:

- Sitting, standing, hanging, leaning, or resting anything on the pipe, fittings, and sprinkler heads
- Grounding electrical wiring to the pipe or fittings
- Ambient temperatures below 40°F/4°C where your fire sprinkler system is located (Unless an approved compatible antifreeze or insulation method is installed)
- Hot work around the pipe, i.e. blow torches, soldering, etc.

Visit www.BlazeMaster.com and review the FBC™ System Compatible Program section for more information.

Be certain that this document is reviewed and understood by anyone working on or around your CPVC sprinkler system. Proper care will help your CPVC fire sprinkler system provide protection for years to come.
