Lansdale, PA 19446

August 8, 2007

To our Valued Customer,

As a result of rising material and transportation costs, along with the recent decision by the Chinese government to reduce the export tax rebate program to their manufacturers, we find it necessary to implement a list price increase on our Grinnell Fire Protection Grooved product line effective Wednesday, September 12, 2007.

The list prices for domestic Fire Protection grooved couplings and fittings will increase approximately 4 ½%. Import grooved couplings will increase approximately 4 ½% and import grooved fittings will increase up to 8%.

Tyco Fire & Building Products is also increasing the list pricing on the following resale items:

- Ames/Watts Backflow Devices and Valves +5%
- Milwaukee Butterball Valves +5%
- United Brass Products +5%
- Potter Electric Switches +5%
- General Air Products +3%
- Guardian Standpipe and Hose Equipment +12%
- Erico Hangers +5%
- Tolco Hangers and Fasteners + 5-6%
- Afcon Braces and Hangers +6%

The list price increase will be effective for all orders placed on and after Wednesday September 12. Orders placed through September 11, for immediate shipment, will be processed at the existing price schedule. A new price schedule reflecting this increase will be available on our website [www.tyco-fire.com](http://www.tyco-fire.com) on Monday, August 13. The file can be downloaded from the site. Direct requests for pricing can be made by contacting your local Tyco Fire & Building Products representative or by calling 800-523-6512.

We thank you for your continued support, and we look forward to being of service to you.

Regards,

David Read  
National Product Manager
