TYCO FIRE SUPPRESSION & BUILDING PRODUCTS' INTRODUCES NEW, MORE-TAMPER RESISTANT INSTITUTIONAL SPRINKLER

Lansdale, PA (February 6, 2009) – Tyco Fire Suppression & Building Products announced today the release of the RAVEN™ institutional sprinkler. The new 5.6 K-Factor, quick response sprinkler is ideal for use in correctional, detention, mental healthcare and commercial facilities.

RAVEN pendent and sidewall sprinklers are designed to be more tamper resistant. The unobtrusive, flush design conceals all the operating parts, eliminating the opportunity of attracting unwanted attention and providing added protection.

RAVEN institutional sprinklers are UL and C-UL listed. The sprinklers are available in standard and extended coverage, up to 16' x 16', and come in white and chrome finishes, with a 165°F / 71°C temperature rating. Contact your local Tyco sales representative or visit www.tyco-fire.com for more information on the RAVEN institutional sprinkler.

About Tyco Fire Suppression & Building Products

Tyco Fire Suppression & Building Products is a strategically aligned business unit with globally recognized products sold under leading brands including ANSUL®, GRINNELL® Mechanical Products, PYRO-CHEM®, QUELL®, RAPID RESPONSE®, HYGGOOD and SKUM.
