Fax: (215) 362-5385

May 18 2004

To our Valued Customers:

As you are aware, Tyco Fire Products is implementing two price increases to offset rising metal material costs.

Our previous bulletins indicated that our Seg-Weld grooved fittings would increase 9% with the May 17 price increase. Due to system difficulties, however, Seg-Weld fittings will not be increased until our general Grooved Products price increase scheduled for orders received on or after June 1, 2004. At that time these products will incur a 12% increase.

Both the 5/17/04 and 6/1/04 Grooved Sections are available for download from the *Literature* section of each of our Fire Products websites, accessible from www.tyco-fire.com.

Should you have any questions or points of clarification, please do not hesitate to contact your local sales representative.

Thank you for your support and continued patronage.

Sincerely,

Thomas N. Prymak,
Vice President of Marketing
