April 25, 2005

To Our Valued Customers:

As many of you are experiencing the increasing costs of raw materials, fuel, transportation, and labor in your businesses, Tyco also continues to incur them.

Over the past several months, we have absorbed many increases from our vendors. As a result, Tyco will be increasing its prices on several of our resale product lines. The increases will be effective for orders placed on or after May 20, 2005.

The increases that we have experienced from our vendors have not been uniform and involve several product sections of our List Price Book. At this time, the following increases have been received and will be reflected in our increase of May 20:

<u>Section</u>	<u>Description</u>	<u>Increase</u>
Section 19	CPVC Tools	5% - 10%
Section C	Kennedy Valve	5% - 15%
Section C	Milwaukee Valve	5% - 10%
Section H	Tolco	5% - 30%
Section H	Afcon	5% - 10%
Section J	Laco	5% - 10%

The affected items within the above groups will be addressed and adjusted individually; however, customers are urged to check the pricing of individual items prior to placing orders.

Tyco's pricing modifications will be posted on the Tyco Fire & Building Products web site on May 13, at [www.tyco-fire.com](http://www.tyco-fire.com). The price files can be downloaded from the web site.

We would like to take this opportunity to thank you for your continued support and loyalty, and we look forward to being of continued service to you.

Should you have questions or comments, please do not hesitate to contact us or your local Tyco Fire Products representative.

Sincerely,

*Jim Brunetti*
