October 14, 2005

To Our Valued Customers,

We have been notified by several of our vendors that they are increasing prices.

As a result, Tyco Fire & Building Products is forced to increase the list pricing for the affected items:

Ames/Watts Backflow Devices: +5%
Anvil/Merit Products: + 9%
CPVC Solvent/Cement: +10%
Milwaukee Butterball Valves: +5%
Ductile Iron Fittings: +5%
United Brass Products: +6%

This increase will be effective November 15, 2005. Orders received on or after November 15 will be at the new price levels.

Every effort will be made to make new price sheets available as quickly as possible. Our amended specialty products pricing will be posted on the Tyco Fire & Building Products website at www.tyco-fire.com, and will be available no later than October 21st. The file can be downloaded from the site. Direct requests for pricing can be made by contacting your local Tyco Fire & Building Products representative or by calling 800-523-6512.

Tyco Fire & Building Products wishes to thank you for your support and patronage. Should you have any questions or comments, please do not hesitate to contact us. We look forward to being of continued service to you.

Sincerely,

Jim Brunetti
